

CATTLE 3c FEEDERS

Patent No. 6263833

All 3C Cattle Feeders:

- Are chain-driven
- Have a 6" auger
- Have a patented digital counter that measures within 2lbs per every 100lbs
- Are the width of a pickup bed and do not extend above the cab unless larger than 2,000lb capacity
- Have a 4" sight hole for rear visibility
- Have a tough metal waterproof cover
- Feature a solid metal frame and feeder
- Contain heavy-duty wiring
- Have vibrators available for light, fluffy feed
- Must be greased every 50 hours of use for optimum performance
